Greenhouse Gas (GHG) Emissions Inventory and Reference Case Projections

A separate report titled “Final Minnesota Greenhouse Gas Inventory and Reference Case Projections 1990–2025,” was used throughout the CCAG process to provide detailed documentation on emissions. The final version of this report, dated March 2008, incorporating comments provided by TWGs and approved by the CCAG, is available on the Climate Change Advisory Group’s Web site: <http://www.mnclimatechange.us/ewebeditpro/items/O3F16231.pdf>
